Contents

1 Determining uncertainties and presenting data **2**

1.1 The importance of uncertainties . . . 2

1.1.1 What do we mean by "uncertainty"? . . . 3

1.1.2 Systematic uncertainties . . . 4

1.2 Prescription for determining certain uncertainties . . . 5

1.2.1 Uncertainties from scales - "Half of the smallest division" . . . 5

1.2.2 Repeatable measurements - "Mean and uncertainty on the mean" . . . 6

1.2.3 Counting experiments - The square root rule . . . 7

1.3 Overestimating uncertainties is also bad! . . . 8

1.4 Reporting measurements, significant figures . . . 8

1.5 Comparing measured quantities . . . 10

1.6 Summary . . . 11

1 Introduction of Physics

Something introductory

1.1 The Scientific Method
